

Sudoku

All Sudokus are completely random generated, unique and solvable by logic only (with the exception of level "evil").

Solutions

A collection of numbers arranged in a circular pattern. The numbers are 3, 6, 7, 8, and 9. Some numbers appear multiple times in different sizes and orientations. For example, the number 3 appears at the top, bottom right, and bottom left. The number 6 appears at the bottom left and bottom right. The number 7 appears at the top right and middle right. The number 8 appears at the top and middle left. The number 9 appears at the middle left and middle right. The numbers are arranged in a way that they form a circular shape, with some numbers appearing larger and more prominent than others.
