

Sudoku

All Sudokus are completely random generated, unique and solvable by logic only (with the exception of level "evil").

A collection of various numbers (0-9) in different sizes and orientations, scattered across a white background. The numbers are rendered in a bold, black, sans-serif font. Some numbers are large and prominent, while others are small and barely visible. The orientations vary, with some numbers rotated 90 degrees or 180 degrees. The overall composition is abstract and non-representational.
